

SÉBASTIEN LACHAPELLE

sebastien.lachapelle@umontreal.ca
(514) 742-7815

4841 Dornal av.
Montreal, QC H3W1V9

EDUCATION

BS University of Montreal, Mathematics and Economics 2017

PhD student at University of Montreal (Mila) in Machine Learning since 2018

RESEARCH EXPERIENCE

Mila – Quebec Artificial Intelligence Institute, Montreal since 2017
Master/PhD student (Master not completed)

- Learning directed acyclic graphs via continuous constrained optimization using artificial neural networks for causal discovery
- Used artificial neural network to predict solution summaries to integer programs
- Worked at the intersection of Operational Research and Machine Learning

Element AI, Montreal 2019
Research Intern

- Neural Autoregressive Flows for causal discovery

DAMÉCO, Montreal
Intern 2016

- Estimation of a demand system for Quebec consumers

PUBLICATIONS

Lachapelle, S., Brouillard, P., Deleu, T., Lacoste-Julien, S. (2019). *Gradient-Based Neural DAG Learning*. arXiv:1906.02226 (to appear at ICLR 2020)

Bengio, Y., Deleu, T., Rahaman, N., Ke, R., Lachapelle, S., Bilaniuk, O., Goyal, A., and Pal, C. (2019). *A Meta-Transfer Objective for Learning to Disentangle Causal Mechanisms*. arXiv:1901.10912 (to appear at ICLR 2020)

Larsen, E., Lachapelle, S., Bengio, Y., Frejinger, E., Lacoste-Julien, S., & Lodi, A. (2019). *Predicting Tactical Solutions to Operational Planning Problems under Imperfect Information*. arXiv:1901.07935 (submitted to INFORMS Journal on Computing)

PRESENTATIONS

NeurIPS 2019 Workshop on Solving Inverse Problems with Deep Networks – Poster
“Gradient-Based Neural DAG Learning”, Vancouver, British-Columbia, Canada.

Montreal AI Symposium 2019 – Oral

“Gradient-Based Neural DAG Learning”, Montreal, Quebec, Canada.

Deep Learning and Reinforcement Learning Summer School 2019 – Poster

“Gradient-Based Neural DAG Learning”, Edmonton, Alberta, Canada.

Optimization Days 2018 – Oral

“Predicting solution summaries to integer linear programs under imperfect information with machine learning”, Montreal, Quebec, Canada.

DIMACS 2018 – Poster

“Predicting solution summaries to integer linear programs under imperfect information with machine learning”, Bethlehem, Pennsylvania, United-States.

HONORS AND AWARDS

Bourse d’excellence du CIRRELT – Accueil au doctorat	2018 – 2019
---	-------------

Prize awarded to seven PhD students (before they completed one year and a half) based on their grades, research aptitudes and implication in CIRRELT

Prix d’excellence des anciens – University of Montreal	2017
---	------

Prize awarded to the student finishing his BS in Mathematics and Economics with the highest GPA in his cohort

Bourse de la doyenne – University of Montreal	2016
--	------

Excellence prize awarded to 13 students from the Faculté des arts et des sciences

Roger-Dehem award in microeconomics – University of Montreal	2016
---	------

Excellence prize in microeconomics

Robert-Lacroix award in macroeconomics – University of Montreal	2016
--	------

Excellence prize in macroeconomics

COMMUNITY SERVICE**Volunteering at the Montreal AI Symposium**

Montreal, August 28th 2018
